

FinanceTalking Premium Membership

Finding your way around the financial world has never been simpler.

Premium membership is designed to give you instant access to succinct information on financial markets, accounting, corporate finance and more via our knowledge bank and briefing papers. It offers a reference source that will keep you informed and up to date and it allows you to improve and update your financial knowledge by reading about issues as they arise.

Premium membership also gives you discounts on our open courses and access to half price standby places, whenever we have availability.

What is FinanceTalking Premium?

Access to our knowledge bank
concise, practical online information on rules and regulations, financial markets, corporate finance, financial reporting and IR issues – one page per subject

Regular briefing papers
covering key topical issues with a more in-depth view, to keep you up to date and continue your professional development

10% discount on open courses
Half price standby places
offered one week before each course, subject to availability

Email support from our tutors
if you can't find the answer you are looking for, we are happy to answer questions on an individual basis

Individual Membership

Individual membership is for your personal use, so discounts on courses and standby places will be offered to you only and cannot be shared with your team. Membership is for one year and is not transferrable.

Team Membership

Team membership allows you to share discounts on courses and standby places amongst your whole team. We will give you up to 10 logins, which are transferrable between team members.

Briefing Papers

This is just a selection of publications from our briefing papers library:

- Understanding Funding
- Analyst Terminology
- Understanding Shareholder Value
- Banks Terminology
- Understanding Rights Issues
- Introduction to Financial Markets
- Calculating & Interpreting Financial Ratios
- Avoiding Market Abuse
- Analysing & Communicating Corporate Strategy
- Understanding & Analysing the Balance Sheet
- Understanding & Analysing the Income Statement
- Introduction to DCF Valuation
- Share Buy-Backs
- Understanding P/E Ratios
- UK Regulations Overview

The screenshot shows the FinanceTalking website interface. The main content area displays an article titled "Changing the Capital Structure" with a sub-heading "Company Finance". Below the article text is a diagram illustrating the relationship between assets, liabilities, and equity. The diagram shows a balance sheet with "Assets" on the left and "Liabilities & Equity" on the right. Assets are split into "Debt @ 50%" and "Equity @ 50%". Liabilities are split into "Debt @ 50%" and "Equity @ 50%". Arrows indicate that "More Efficient" leads to "Less Debt" and "More Equity", and "More Risky" leads to "More Debt" and "Less Equity". A central box states: "Make assets or pay high dividends", "Pay back debt", "More profits and other items pay back debt from cash flow investments".
