

Commercial Finance for Non-Financial Managers

2 Days (for dates see www.financetalking.com)

SUMMARY

This two-day course is ideal for business managers who would like to be more financially skilled. Starting from scratch, you'll understand the key financial concepts that are of crucial importance in the boardroom. And we break these concepts down to see what they mean for you in your role. We cover the big picture; how accountants think; how the numbers help you understand performance; budgeting and forecasting; and investment appraisal - everything you need to know to make better business decisions, including all the jargon.

OUTCOMES

- Understand balance sheets and income statements and use them confidently
- Contribute effectively to budgets and forecasts
- Understand key corporate finance concepts such as ROI and cost of capital
- Be able to evaluate investment proposals using concepts such as NPV and IRR
- Make better decisions by understanding the financial impact of your actions
- Be able to speak the language of the boardroom and be able to communicate more effectively with finance professionals

WHAT'S INCLUDED
